Fall Harvest Fair Message

The origins of the South Burnaby Garden Club go back to the turn of the previous century.

In those days, Burnaby, and the rest of the lower mainland, was an agricultural and mostly rural society. Refrigeration was only a dream and there was very little trade in foodstuffs between countries. People depended on themselves and local farmers to produce foods that could be stored for use in winter. It was up to each family to manage this process through the use of root cellars and by canning and pickling.

Harvest time was the high point of the year and citizens gathered together at a fall fair to show the results of their labour by displaying the best of their annual crops. They would visit with each other and generally celebrate the harvest. Preserves and flowers were also exhibited with prizes being awarded for the best entries.

One hundred and twenty-five years later our Fall Harvest Fair persists. While many changes have occurred, the basic feelings of celebrating the growing season and our preparation for the winter remain. The Fair is our link with the past and helps us remember how independent we can be, if needed.

This year the parking lot will be full of cars rather than horse drawn buggies. Never mind - put a little imaginary straw in your hat and come sample 125 years of change.

QUASQUICENTENNIAL Anniversary - 125 Years

Watch for Special entries in the schedule this year in honour of our 125th year as a garden club and our ongoing commitment to celebrating our harvests at this time of year.

100-mile Climate Change Challenge

As part of our commitment to addressing climate change, we have a special entry in Division 'P' Crafts.

WITH APPRECIATION

The Executive and Members of the South Burnaby Garden Club would like to express their appreciation to the Burnaby Parks and Recreation Commission for the use of the Bonsor Complex for our meetings and our Fall Harvest Fair - with special thanks to the Bonsor Staff for their co-operation. We would also like to thank the Donors and Sponsors for their support and urge our members to show their appreciation by purchasing their products.

Our History

In January 1901 a group of Central Park residents met to form a Farmers' Institute (incorporated in May 1901). They leased seventeen acres of Central Park from the Provincial Government. With surprising speed, they arranged for government grants and constructed a "magnificent two-story building". The building was described as "second to none outside Victoria and New Westminster" and was ready in time for the September 1901 Fall Fair.

In 1903 the Institute amalgamated with the South Vancouver and Burnaby Agricultural Society and became the Central Park Agricultural Association & Farmers Institute. They continued to hold successful Fall Fairs and improve the building and grounds. In 1906 their hard work was rewarded with a visit to their annual Fall Fair from B.C. Premier Richard McBride. In 1907 the membership doubled to five hundred twenty members. However, this was the pinnacle as increasing urbanization and World War I saw the last exhibition on 1919. The lease expired in 1921 and the building was demolished in 1924.

The society continued to meet and hold small exhibitions in rented halls under the name The South Burnaby Horticultural Association. After several name changes, the association became THE SOUTH BURNABY GARDEN CLUB in 1960.

Today the SOUTH BURNABY GARDEN CLUB is affiliated with the B.C. COUNCIL OF GARDEN CLUBS.

Yukon Gold' is a large cultivar of potato most distinctly characterized by its thin, smooth, eye-free skin and yellow-tinged flesh and brown-tinted skin.

Yukon Gold potatoes have a sweet, buttery, and earthy flavor suited for cooked applications such as roasting, grilling, frying, mashing, sautéing, and boiling.

What sets Yukon Golds apart from russets is their balance of starch and moisture. Unlike russets, which can turn chalky and crumbly when cooked, Yukon's hold their shape in soups and braises, becoming tender without disintegrating.
